With lilies drooped on either side; Our hearts, in spite of us, will dream

While here and there the trees between-Bearing the sears of battle-shocks, And frowning wrathful might be seen

The moss veiled faces of the rocks, And round the rocks crept flowered vines And climbed the trees that towered high-The type of lofty thought that twines Around a Truth, to touch the sky.

Until the last of August went; Beauty, the exile, came each day, In all her charms, to cast her tent. Twas there one long-gone August day I wandered down the valley fair—

And to the vale from first of May

The spell has never passed away, That fell upon my spirit there. The summer sunset glorified The clouded face of dving day Which flung a smile upon the tide

And lilies, ere he passed away. And o'er the valley's grassy slopes There fell an evanescent sheen, That flashed and faded like the copes That haunt us, of what might have been. And rocks and trees flung back the light

Of all the sunset's golden gems, As if it were beneath their right Low in the West gleam after gleam Glowed faint and fainter—till the last Made the dying Day a living Dream To last as long as life shall last.

And in the arches of the trees The wild birds slept with folded wing, And e'en the lips of the summer breeze, That sung all day, had ceased to sing.

That rippled round the lilies' feet— And sang—while stillness grew more still To listen to the murmur sweet. And now and then it surely seemed The little stream was laughing low-As if the sleepy wavelets dreamed Such dreams as only children know.

And guard its sleep-as they guard men As sorrow sings a heart to sleep,-As a mother sings one child to rest And for the dead one still will ween.

I walked adown the singing stream The lilies slept on either side:— My heart—it could not help but dream

At Eve, and after Eventide. Ah! dreams of such a lofty reach With more than earthly fancies fraught That not the strongest wings of speech Could ever touch their lowest thought.

Heart-fancies flashing Heaven's hue That swept around, as sweeps a star The boundless orbit of the True. Yea! dreams all free from earthly taint-Where kuman Passion plays no part-

As pure as thoughts that thrill a Saint Or haunts an Archangelic heart,

And soaring-bore my heart away-Beyond the far Star bounds of Night

Ah! dreams that did not rise from Sense, And rose too high to stoop to it— And flamed aloft the frankincense In censors round the infinite.
